INVESTIGATION INTO THE SAFETY AND RELIABILITY OF HEMLOCK UTILITY SERVICES

The British Columbia Utilities Commission (BCUC) is conducting a hearing to fully assess the safety and reliability of Hemlock Utility Services Ltd.'s (Hemlock) electrical distribution system and system assets, as well as its customer service-related issues.

This hearing is the result of an application Hemlock filed with the BCUC on December 14, 2020, where it requested approval to revise Section 19 (Liability of the Company re: Service) of its Electric Tariff Terms and Conditions (2020 Application). In the 2020 Application, Hemlock sought approval to include additional liability provisions relating to its supply of electricity to customers.

By Order G-153-21 and the accompanying Reasons for Decision, the BCUC approved, among other things, the proposed additions to the liability provisions of Hemlock's Electric Tariff. Further, the BCUC recommended that it initiate a separate proceeding to investigate the operational concerns identified through the initial review of the 2020 Application.
